

Get To Know You Introductions

The purpose of this assignment is to share something about you through a creative graph. The type, subject, and style of graph you choose is entirely up to you.

Here are some ideas (or you can choose your own) on how to share something about yourself with a graph:

- How often I check myself in a mirror*
- Which apps I use the most on my phone*
- Which hours of the day I'm on my phone*
- My hourly schedule*
- Types of clothes in my closet*
- Shows I watch*
- Types of pictures I keep on my phone*
- YouTube channels I watch*
- What I read each week*
- Items I spend my own money on*
- Books or music I'm into*
- Types of music on my phone*
- Time I spend alone*

- Think about a typical week timespan for the data, or begin today for the next week.
- Write down the data about your given topic
- Make necessary observations each day
- Start to visualize how you want your data to look, you can draw circles, squares, lines, shapes, etc.
- Try to avoid a typical style graph like bar graph, pie chart, line graph, etc.
- Create a final graph of your data and check:
 - ✓ Is it neat and understandable?
 - ✓ Do you need a key or a legend to add more detail?
 - ✓ Can I learn something about you with the graph?
 - ✓ Is your name on it?
