

LESSON - iNaturalist

1. Go to the iNaturalist website
2. Make an account using your school gmail account
3. Verify your email on your gmail

LESSON - iNaturalist

1. Go to the “Community” tab
2. Click on “Projects”
3. Search for “FWHS”
4. Join the project!

The screenshot shows a web browser window with the URL `inaturalist.org/pr...`. The browser's address bar and tabs are visible at the top. The iNaturalist website interface includes a navigation bar with the logo, a search bar, and menu items: "Explore", "Your Observations", "Community" (highlighted with a green underline), and "More". A large black arrow points from the top right towards the "Community" dropdown menu. Below the navigation bar, there is a "New & Noteworthy" section featuring a large image of a black and yellow snake with its mouth open, eating a green leaf. The text "Snake Predation Records" is overlaid on the bottom of the image. To the right of the image is a dark grey box titled "Projects" with the text: "Projects let you pool your observations with other people on iNaturalist. Whether you're starting a citizen science effort or keeping tabs on the birds in your neighborhood, Projects are the way to go." Below this text is a green button labeled "Start a Project". At the bottom of the page, there is a search bar with a "Go" button and a "Manage Your Projects" dropdown menu. A "Featured" section at the very bottom shows a row of four small image thumbnails.

LESSON - iNaturalist

1. Download the Seek app
2. Log in to this account using your iNaturalist login

LESSON - iNaturalist

1. Click on the camera icon to make your first observation!
2. Observations will automatically get added to our project
